DETAILED ACTION

Response to Amendment

1. The Examiner acknowledges the amendments on the claims filed on February 23, 2006. Claims 3-11 have been canceled.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 2 (Currently amended). An electronic camera as recited in claim 1, wherein the correction circuit includes ~~at least one~~ a second lookup table, wherein the ~~at least one~~ second lookup table has an input to identify a particular light sensitive element of the array, and wherein the ~~at least one~~ second lookup table has an output to provide a correction value.

Allowable Subject Matter

3. **Claims 1 and 2 are allowed.**
4. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 1, the main reason for indication of allowable subject matter is because the prior art fails to teach or reasonably suggest, in combination with the existing elements of the present claim, that the lookup table has an output to provide a same cluster identifier for each of the plurality of particular light sensitive elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
